Supporting Improved Force Projection of the Transforming Army and the Joint Warfighter

DEPUTY CHIEF OF STAFF, G-4
UNITED STATES ARMY

Welcome to the Force Projection Information Center Joint Repository and Knowledge Database Web Application

ODCS, G-4 proudly sponsors the Force Projection Information Center (FPIC) in support of Army deployment operations and the joint warfighter. The FPIC began broadcasting via the Army Portal in September 2002. This innovative communications asset is overwatched by my Force Projection and Distribution Directorate as an extension of Line of Operation 9, "Deploying and Sustaining", and the Army Power Projection Program. The FPIC is a comprehensive, web-enabling tool that centralizes

The Road Ahead

Still in the Works...

- Pursue improving Repository content and functionality for the joint warfighter:
 - Increase direct coordination with warfighter... FORSCOM elements.
 - Develop/deploy a deployment Studies, Reports and Analysis Library.
 - Expand Training section to include deployment MOS training opportunities.
- Increase effectiveness of Mobility (Warrant) Officers support page:
 - Complete POC Register.
 - Enhance the current automation support listing.
 - Establish Message Center to enable communication amongst MOs around the Army.
 - Establish integration with T-School MO Basic Course POI.
 - Increase support and integration with T-School Deployment Exercise Facility.
 - Host/coordinate annual (?) forum tailored for MOs.
- Enhance the Training section to include more information for deployment and transportation related training.
- Potential integrated portal for G-4 consisting of (3) information centers for Force Projection (FPIC), Distribution Policy (DPIC), and Transportation Policy (TPIC).
